Appendix A - Sample items from the MLAT-E (adapted from the SLTI website)

PART 1- HIDDEN WORDS

Part 1 of the MLAT-E has 30 items. This part of the MLAT requires the ability to associate sounds with symbols and depends somewhat on knowledge of English vocabulary. Each question below has a group of words. The word at the left of the group is not spelled in the usual way. Instead, it is spelled approximately as it is pronounced. The task of the pupil is to recognize the disguised word from the spelling. He or she needs to select one of the four words beside it that corresponds **most closely in meaning** to the disguised word.

1. wntr	champion	season
	liquid	happy
2. klen	brave	group of people
	a person who rules	not dirty
3. pensl	used for writing	type of boat
	large bird	money
4. snak	hard wood	to tease
	reptile	type of shoe

Correct Answers:

1. **wntr** is a disguised spelling of **winter**, which is a **season**
2. **klen** is a disguised spelling of **clean**, which corresponds in meaning to **not dirty**
3. **pensl** is a disguised spelling of **pencil**, which is **used for writing**
4. **snak** is a disguised spelling of **snake**, a kind of **reptile**

PART 2- MATCHING WORDS

There are 30 questions in MLAT-E Part 2. The questions test recognition, analogy, and understanding of a far greater range of syntactic structures than the 4 sample questions shown here. Although knowledge of grammatical relationships is measured in this part, no explicit reference is made to grammatical terminology, so grammatical sensitivity is measured without measuring grammatical knowledge gained through formal instruction.

In each of the following questions, we call the first sentence the *key* sentence. One word in the *key* sentence will be underlined and printed in capital letters. The task is to select the word in the second sentence that plays the same role in that sentence as the underlined word in the *key* sentence.

1. Yesterday, Mary caught a FISH at the lake.

Cindy cut a cake with a knife.

2. Amy SANG a pretty song to her class.

James throws big rocks into the lake.

3. Peter got an ORANGE cat for his birthday.

My sister ate a big apple on Wednesday.

4. The furry DOG barked at us as we walked by.

Did John go to the store to get bread?

Correct Answers:

1. A mark would be put in the box beneath **cake**. In the first sentence, something was caught, and the thing that was caught was a FISH. In the second sentence, something was cut, and that thing was a **cake**.
2. A mark would be put in the box beneath **throws** because SANG in the first sentence and **throws** in the second sentence are both *the action* that occurs.
3. A mark would be put in the box beneath **big** because ORANGE in the first sentence *describes* the cat and **big** in the second sentence *describes* an apple .
4. A mark would be placed in the box beneath **John** because the first sentence is *about* a DOG and the second sentence is *about John*.

PART 3- FINDING RHYMES

There are 40 items in Part 3 of the MLAT-E. This portion of the test measures the pupils ability to hear and make distinctions between speech sounds. Some knowledge of English vocabulary is required for this part. In each of the questions below, the word in CAPS is called the *stimulus*. The pupils are asked to mark the box next to the word that best rhymes with the stimulus.

- | | | | | |
|---------------|------------|------------|-------------|-------|
| 1. TIME | tame | tide | dime | shin |
| 2. RAIN | vine | cane | keen | fine |
| 3. MEET | beat | mate | keep | might |
| 4. ROOT..... | foot | but | fruit | book |

Correct Answers:

1. **dime** 2. **cane** 3. **feat** 4. **fruit**

PART 4- NUMBER LEARNING

Part 4 of the MLAT-E has 25 possible points. This part of the MLAT tests auditory and memory abilities associated with sound-meaning relationships. In this part of the MLAT-E, the pupil will learn the names of numbers in a new language. Subsequently, he or she will hear the names of numbers spoken aloud, and will be asked to write down these numbers. For example, if you heard someone say the number "seventeen" in English, you would write down 1 7. But in this test, the pupil will hear the numbers in a new language. Here's how it will work:

The pupil will hear some instructions read aloud. The speaker will then teach him or her some numbers. The speaker will say something like:

[The red text represents the voice heard by the pupil.]

Now I will teach you some numbers in the new language. First, we will learn some single-digit numbers:

"ba" is "one"
"baba" is "two"
"dee" is "three"

Now I will say the name of the number in the new language, and you write down the number you hear. Try to do so before I tell you the answer:

"ba" -- That was "one"
"dee" – That was "three"
"baba" – That was "two"

Now we will learn some two-digit numbers:

"tu" is "twenty"
"ti" is "thirty"

"tu-ba" is "twenty-one" in this language -- because "tu" is twenty and "ba" is one. "ti-ba" is "thirty-one" – because "ti" is thirty and "ba" is one.

Now let's begin. Write down the number you hear.

- a. ti-ba [you have only about 5 seconds to write down your answer]
- b. ti-dee
- c. baba
- d. tu-dee

Correct Answers:

- a. 31
- b. 33
- c. 2
- d. 23

PARTE 1- PALABRAS OCULTAS

Part 1 of the MLAT-ES has 30 items. This part of the MLAT-ES requires the ability to associate sounds with symbols and depends somewhat on knowledge of Spanish vocabulary. Each question below has a group of words. The word at the left of the group is not spelled in the usual way. Instead, it is spelled approximately as it is pronounced. The task of the pupil is to recognize the disguised word from the spelling. He or she needs to select one of the four words beside it that corresponds **most closely in meaning** to the disguised word.

| 1. | bazo | parte del cuerpo | gordo |
| | | inteligente | copa |
| 2. | erbir | cocer | dominar |
| | | sentir | hablar |
| 3. | vever | empujar | tomar |
| | | oír | conducir |
| 4. | vallena | con mucha gente | peluca |
| | | animal marino enorme | barbilla |

Correct Answers:

1. **bazo** is a disguised spelling of **vaso** (drinking glass), which corresponds in meaning to **copa** (drinking cup)
 2. **erbir** is a disguised spelling of **hervir** (to boil), which corresponds in meaning to **cocer** (to cook)
 3. **vever** is a disguised spelling of **beber** (to drink), which corresponds in meaning to **tomar** (to drink)
 4. **vallena** is a disguised version of **ballena** (whale), which is an **animal marino enorme** (enormous marine animal)

PARTE 2- PALABRAS QUE SE CORRESPONDEN

There are 30 questions in MLAT-ES Part 2. The questions test recognition, analogy, and understanding of a far greater range of syntactic structures than the 4 sample questions shown here. Although knowledge of grammatical relationships is measured in this part, no explicit reference is made to grammatical terminology, so grammatical sensitivity is measured without measuring grammatical knowledge gained through formal instruction.

In each of the following questions, we call the first sentence the *key* sentence. One word in the *key* sentence will be underlined and printed in capital letters. The task is to select the word in the second sentence that plays the same role in that sentence as the underlined word in the *key* sentence.

1. Ayer, María rompió el VIDRIO.

Carolina cortó la torta con un cuchillo.

2. Beatriz CANTÓ una canción bonita a su clase.

Óscar tira piedras grandes al lago.

3. Pedro recibió un gato BLANCO por su cumpleaños.

Mi hermana comió una manzana grande el miércoles.

4. El PERRO peludo ladraba toda la noche.

¿Fue a la tienda Paco para comprar pan?

Correct Answers:

1. A mark would be put in the box beneath **torta**. In the first sentence, something was broken, and the thing that was broken was a VIDRIO (window). In the second sentence, something was cut, and that thing was a **torta** (cake).
2. A mark would be put in the box beneath **tira** because CANTÓ (sang) in the first sentence and **tira** (throws) in the second sentence are both *the action* that occurs.
3. A mark would be put in the box beneath **grande** because BLANCO (white) in the first sentence *describes* the cat and **grande** (big) in the second sentence *describes* an apple.
4. A mark would be placed in the box beneath **Paco** because the first sentence is *about a PERRO* (dog) and the second sentence is *about Paco*.

PARTE 3- PALABRAS QUE RIMAN

There are 40 items in Part III of the MLAT-ES. This portion of the test measures the pupil's ability to recognize distinctions between speech sounds. Some knowledge of Spanish vocabulary is required for this part. In each of the questions below, the word in CAPS is called the *stimulus*. The pupils are asked to mark the box next to the word that best rhymes with the stimulus.

- | | | | | |
|---------------|-------------|--------------|---------------|---------|
| 1. YESO..... | paso..... | piso..... | tropiezo..... | ocio |
| 2. AMIGO..... | obligó..... | ombligo..... | refugio..... | hormiga |
| 3. TESORO... | oro..... | tijera..... | caro..... | sordo |
| 4. BUENO..... | tengo..... | muerdo..... | heno..... | pino |

Correct Answers:

- 1. tropiezo 2. ombligo 3. oro 4. heno**

PARTE 4- NÚMEROS EN OTRO IDIOMA

Part 4 of the MLAT-ES has 25 possible points. This part of the MLAT tests auditory and memory abilities associated with sound-meaning relationships. In this part of the MLAT-ES, the pupil will learn the names of numbers in a new language. Subsequently, he or she will hear the names of numbers spoken aloud, and will be asked to write down these numbers. For example, if you heard someone say the number "seventeen" in English, you would write down 1 7. But in this test, the pupil will hear the numbers in a new language. Here's how it will work:

The pupil will hear some instructions read aloud. The speaker will then teach him or her some numbers. The speaker will say something like:

[The red text represents the voice heard by the pupil.]

En esta parte de la prueba vamos a aprender los nombres de algunos números en un idioma distinto. Yo voy a decir el nombre de cada número. Ahora, a escuchar con mucha atención.

"ba" es "uno"

"baba" es "dos"

"dee" es "tres"

Ahora, yo voy a decir el nombre de unos números, y hay que escribir los números correspondientes.

"ba" -- "Uno" es la respuesta correcta.

"dee" -- "Tres" es la respuesta correcta.

"baba" -- "Dos" es la respuesta correcta.

Ahora, vamos a aprender los números para "veinte" y "treinta".

"tu" is "veinte"

"ti" is "treinta"

"tu-ba" es "veintiuno" en este idioma --porque "tu" es veinte y "ba" es uno. "ti-ba" es "treinta y uno" – porque "ti" es treinta y "ba" es uno.

Aquí vamos a hacer lo mismo que hicimos en los ejercicios de práctica: apenas yo diga las palabras hay que escribir el número correspondiente. Vamos a empezar.

a. ti-ba [the pupil has only about 5 seconds to write down each answer]

b. ti-dee

c. baba

d. tu-dee

Correct Answers:

a. 31 b. 33 c. 2 d. 23

Appendix C: Directions of the MLAT-EC on CD and sample items plus audio file

Benvinguts a aquesta prova d'aptitud per a llengües estrangeres. En aquesta prova jo seré el professor i tots junts llegirem les instruccions. Jo les llegiré en veu alta i cada un de vosaltres seguireu en silenci en el quadern de la prova el que llegeixi.

Part 1. Paraules ocultes.

Examinem aquestes paraules:

t-l-f-o-n

o-v-r-t

p-r-t-i-r

k-n-t-a-r

¿Què són realment aquestes paraules? A algunes els falta lletres i d'altres estan escrites de manera estranya. Els direm PARAULES OCULTES.

Això és el que són realment les dues primeres paraules:

t-l-f-o-n és telèfon

o-v-r-t és obert

Ara escriurem les altres dues paraules:

9 segons de pausa

p-r-t-i-r és “partir”

k-n-t-a-r és “cantar”

Com que ja tenim pràctica en trobar les “paraules ocultes”, vegem ara com es contesta aquesta part de la prova. Abans hem escrit la paraula oculta en l’espai en blanc. D’ara endavant seguirem descobrint la paraula oculta, però, en comptes d’escriure-la, posarem una X a la casella de la paraula o del grup de paraules que tenen el mateix significat que la paraula oculta. Per exemple:

Ja sabem que t-l-f-o-n és telèfon. Molt bé, doncs ara llegirem el que està a la dreta:

- un mes de l’any
- serveix per parlar
- bolígraf
- part del cos

2 segons de pausa

La casella que està al costat de les paraules “serveix per parlar” està marcada amb una X perquè és per això que serveix un telèfon. Ara passem a la pròxima paraula:

o-v-r- t

Sabem que és “obert”. Llegeix el que està a la dreta

- salt
- sense tancar
- animal petit
- color fosc

“Obert” vol dir “sense tancar”. Per això la casella que està al costat de “sense tancar” està marcada amb una X.

Ara practiquem amb aquestes paraules:

m-o-z- k

Llegeix el que està a la dreta i posa una X a la casella en què diu el que significa m-o-z-k.

8 segons de pausa

“Insecte” és la resposta correcta perquè la paraula oculta és “mosca”, que és un insecte.
Passa a la pròxima paraula:

f- n- s- t- r- a

Posa una X a la casella al costat de les paraules que diuen el que és f-n-s-t-r-a.

8 segons de pausa

La resposta correcta és “deixar entrar la llum” perquè la paraula oculta és “finestra”, que serveix per deixar entrar la llum en una casa. Ara escolta amb molta atenció però sense passar encara a la pàgina següent. Quan jo digui, passa a la pàgina següent per fer exercicis com els que acabem de fer. Quan acabis la pàgina, passa a la següent. Procura fer tots els exercicis i si tens dubtes, has de marcar el que creus millor. Treballa acuradament però ràpid. Endavant, passa la pàgina i comença a treballar.

315 segons de pausa = 5 minuts i 15 segons

Atura’t. Hem acabat aquesta part de la prova. No passa res si t’han quedat exercicis per fer. Ara passem a la propera pàgina. Com abans, llegiré les instruccions en veu alta i cada un m’anireu seguint en silenci.

PART 2. PARAULES QUE ES CORRESPONEN

Ara llegiré les instruccions en veu alta. En aquesta part de la prova descobrirem les diferents funcions que poden tenir les paraules dins d’una frase. Ara llegirem el primer grup de frases fent especial atenció a les paraules escrites en majúscules. A aquestes paraules els direm “PARAULES CLAU”.

1. La MARIA menja pastanagues.
“Maria” és la paraula clau perquè està escrita en majúscules.
2. El distret d’en PERE es vam emportar el meu barret
En aquesta frase, “Pere” és la paraula clau.
3. L’Alícia està pelant una poma.
4. L’ocell es banya a la font
5. La tassa del nen va caure.

Ara escolta les instruccions amb molta atenció. Tornem a la frase número 1, “La Maria menja pastanagues”. La paraula clau es refereix a la persona o cosa que “fa” alguna cosa. És a dir, que realitza l’acció en aquesta frase. És la paraula que contesta la pregunta “qui o què menja pastanagues?”. La Maria menja pastanagues. Per tant, la resposta és “Maria”.

Passem ara a la frase número 2.

“El distret d’en PERE es vam emportar el meu barret”

Aquí també la paraula clau es refereix a la persona o cosa que fa alguna cosa. És la paraula que contesta la pregunta “Qui o què es va emportar el meu barret?”. En Pere es va emportar el meu barret. Per tant, la resposta és “Pere”.

Ara farem una pregunta semblant per a les altres frases. En la número 3, la pregunta és “Qui o què està pelant una poma?”. La resposta és “Alícia”.

En la número 4 , “Qui o què es banya a la font?” La resposta és “ocell”.
En la número 5, la pregunta és “Qui o què va caure?”. La resposta és “tassa”.

Per tant, veiem que encara que aquestes paraules siguin diferents, totes tenen la mateixa funció dins de la seva frase. Ara mira a la dreta, on hi diu:

A. “La Susanna va trencar un got”

“Susanna” és la paraula clau.

Ara llegeix la frase de sota.

“El meu gos menja galetes”.

Quina paraula d'aquesta frase es correspon a “Susanna”? És a dir, quina paraula té la mateixa funció que la paraula “Susanna” en la primera frase?

Has de trobar aquesta paraula i marcar la casella de sota d'aquesta paraula amb una X.

10 segons de pausa

La resposta correcta és “gos”. Per què és la resposta correcta? Bé, examinem la primera frase: “La Susanna va trencar un got”. “Susanna” és la paraula que contesta la pregunta “Què o qui fa o va fer alguna cosa”.

A la segona frase, “El meu gos menja galetes”, hem de trobar la paraula que contesta la mateixa pregunta “què o qui fa o va fer alguna cosa”. La resposta és “gos”. Per tant, posarem una X a sota de la paraula “gos”.

Ara farem el problema de l'exemple B, que està just a sota. Endavant, comença.

12 Segons de pausa

La resposta correcta és “taronges”.

Ara examinarem el proper grup de frases, que us ensenyarà una altra de les funcions que tenen les paraules. En aquestes frases, les paraules clau indiquen “el que es fa”. És a dir, indiquen l'acció que hi ha a la frase.

Bé, llegim aquestes frases.

La número 1 és “En Pau VENGUÉ la seva raqueta de tenis”.

La paraula clau, “vengué”, ens indica “el que es va fer”, és a dir, l’”acció” que es va fer en aquesta frase, “algú vengué alguna cosa”.

En la número 2, alguna cosa “caigué”; en la número 3, alguna cosa “brilla”, en la número 4 algunes coses “volen”, i en la número 5 algú “escriurà”. Ara practicarem una mica, com ja hem fet abans. Passem a l'exemple que està a la dreta, l'exemple A

“L'Enric TIRÀ una pedra gran”

“La Sandra va en bicicleta.”

Quina paraula de la segona frase indica l'acció o el que es fa en aquesta frase? Posa una X a la casella que està a sota d'aquesta paraula.

12 segons de pausa

La resposta correcta és “va” perquè aquesta paraula correspon a “tirà” i es refereix “al que es fa. Fes ara l'exemple B, que està just a sota. Endavant, comença.

12 segons de pausa

La resposta correcta és “guanyarà”.

Ara passem al següent grup de frases, que ens mostra una altra funció de les paraules. La primera frase és “La gallina VERMELLA va pondre un ou”. Si ens fixem en les paraules clau d'aquestes frases veurem que totes tenen la mateixa funció. La primera frase es refereix a una gallina, i la paraula clau ens diu “com” és la gallina. És una gallina “vermella”.

La frase número 2 és sobre un home i la paraula clau ens diu “com” és aquest home. És “ros”.

En la número 3 es parla d'un llibre i la paraula clau indica “com” és el llibre. És “gran”.

En la número 4 es parla d'una cançó i la paraula clau ens diu “com” és la cançó. És “alegre”. L'última frase es refereix a un escriptori i la paraula clau ens diu “com” és l'escriptori. És “pesat”.

Ara mirarem l'exemple A, que està a la dreta i intentarem trobar la paraula que es correspongi.
“El nen més ALT és el meu germà”

“Vull comprar panets dolços”

Quina paraula de la segona frase té la mateixa funció que té la paraula “alt” a la primera? Posa una X a sota de la resposta.

12 segons de pausa.

“Dolços” és la paraula correcta perquè a la primera frase, la paraula que diu “com” és el nen és la paraula “alt” i en la segona, la paraula que diu “com” són els panets és “dolços”.

Fes ara l'exemple B, que està just a sota. Endavant, comença.

12 segons de pausa.

La resposta correcta és “nou”.

Ara examinarem l'últim grup de frases, que mostra una altra funció de les paraules. La primera frase és “Vostè va pelar la POMA”. Ens hem de fixar en què en aquesta frase es fa o es va fer alguna cosa, i la paraula clau ens diu a qui o a què se li va fer aquesta cosa. És a dir, qui o què va rebre l'acció.

En la primera frase “algú va pelar alguna cosa”.

- Què va pelar?
- La poma.

En la segona frase “algú escolta alguna cosa”.

- Què escolta?
- Música.

En la tercera frase es vol menjar alguna cosa.

- Menjar què?
- Pastís.

A la frase número 4 algú va agafar algú.

- Qui es va agafar?
- El lladre

A la frase número 5 algú va obrir alguna cosa.

- Què va obrir?
- Una finestra.

Ara passem a l'exemple A, que està a la dreta, i intentarem trobar la paraula que correspongi.

“En Pere em va portar bombons”
“El gat matà un ratolí”.

Quina paraula de la segona frase té la mateixa funció que “bombons” a la primera? Posa una X a sota de la resposta.

12 segons de pausa

“Ratolí” és la resposta correcta perquè la paraula “bombons” de la primera frase és el que en Pere va portar i en la segona “ratolí” és el que va matar el gat.

Fes ara l'exemple B, que està just a sota. Endavant, comença.

12 segons de pausa.

La resposta correcta és “carta”.

Ara escolteu amb molta atenció i no passeu a la propera pàgina fins que jo ho digui. Seguirem treballant amb exercicis com els que acabem de fer. Per poder treballar aquests exercicis, el primer que s'ha de fer és descobrir “quin” tipus de problema és. És a dir, heu de mirar la paraula clau de la primera frase i decidir quina funció té en aquella frase. Després heu de llegir la segona frase, per descobrir la paraula que es correspon amb la paraula clau; és a dir, la paraula que té la mateixa funció que la paraula clau de la primera frase.
Torno a repetir: llegiu la primera frase, trobeu la paraula clau, decidiu la funció de la paraula clau, i llavors heu de trobar la paraula que es correspon a la paraula clau de la primera frase. Molt bé, passem a la propera pàgina i treballem fins al final d'aquesta part o fins que jo digui que heu de parar. Endavant, passeu a la pàgina següent.

18 minuts i 45 segons de pausa.

Atura't. Hem arribat al final d'aquesta part. Passa a la pàgina següent, on comença la part 3, “Paraules que rimen”.

PART 3. PARAULES QUE RIMEN

Aquesta part de la prova consisteix a trobar les paraules que millor rimen.

Si a l'hora d'escriure un poema tinguéssim escrit el següent:

“Vaig veure un alegre ocellet
al bell mig d'un _____”

Amb quina d'aquestes quatre paraules ompliríem el buit?

riu..... riuet bosc castell

La paraula *riuet* és la que millor rima amb OCELLET. Per assenyalar que hauríem d'escollir *riuet* posarem una X a la casella que està al costat de *riuet*.

Ara practiquem a veure si trobem les paraules que rimen. Mirem la paraula ROSA, que està més avall. Després llegirem les quatre paraules que estan a la dreta. Quina paraula rima amb ROSA?

ROSA..... cosa riure passa..... tassa

Cosa és la paraula que rima millor amb ROSA, així que la marcarem amb una X a la casella.

Ara assajarem amb aquestes paraules:

SABATILLA tela cartilla palla parella

Cartilla és la paraula que rima amb SABATILLA, així que hauríem d'haver marcat amb una X la casella que està al costat de cartilla.

Ara cadascú pel seu compte farà les altres tres paraules. Endavant, comenceu.

20 segons de pausa

Molt bé. Les respostes correctes són les següents:

Per a la paraula CAVALL, la resposta correcta és “treball”, l’última paraula. Per a “emoció” la resposta és “passió”, la tercera paraula. I per a “núvol”, la resposta correcta és cùmul, la quarta paraula. Fixeu-vos que hi ha paraules que rimen tot i que no s’escriuen ni es pronuncien exactament igual. Per exemple, CAVALL rima amb *treball*, EMOCIÓ rima amb *passió*, i NÚVOL rima amb *cùmul*.

Les preguntes d’aquesta part de la prova són com les que acabem de fer. Ara escolteu amb molta atenció i no passeu a la pàgina següent encara. Quan jo ho digui, passarem a la pàgina següent per treballar les paraules d’aquella pàgina. Quan acabeu d’aquesta pàgina heu de passar a la pàgina que segueix. Heu d’intentar fer totes les paraules. Si dubteu en alguna, heu de marcar la que soni millor.

Molt bé, endavant, passeeu a la pàgina següent i comenceu.

7 minuts i 42 segons de pausa. 462 segons

Atureu-vos. Hem acabat aquesta part. No passa res si han quedat paraules per fer. Ara passem a l’exercici següent, on hi diu “Números en un altre idioma”, perquè ara aprendrem números en un altre idioma. Passem ara a la pàgina següent.

PART 4. NÚMEROS EN UN ALTRE IDIOMA

En aquesta part de la prova, aprendrem números en un idioma diferent del nostre. Jo diré el nom de cada número i després el repetireu en veu alta. Ara practicarem una estona i després diré els números una altra vegada i cadascú els escriurà en els espais corresponents. Ara, escolteu amb molta atenció.

“Co” és 1.

El nom del número 1 és “Co”.

Quan un sent la paraula “Co” ja sap que vol dir 1.

“Vein” és 2.

El nom del número 2 és “Vein”

Quan un sent la paraula “Vein” ja sap que vol dir 2.

“Ral” és 3

El nom del número 3 és “Ral”.

Quan un sent la paraula “Ral” ja sap que vol dir 2.

Ara practicarem una mica. Jo diré una paraula i cadascú dirà en veu alta quin número és.

“Ral”. Quin número és? Digueu-lo.

Efectivament, és 3.

Ara farem la prova amb aquests números.

“Co”.

5 segons de pausa

Sí, és 1

“Vein”.

5 segons de pausa

Sí, és 2.

Bé, seguim practicant. Jo diré una paraula i cadascú de vosaltres dirà quin número és.

“Co”

5 segons de pausa

Sí, és 1.

“Vein”

5 segons de pausa

Sí, és 2.

“Ral”

5 segons de pausa

Sí, és 3.

Ara practicarem d'una manera una mica diferent. Jo diré la paraula però, aquesta vegada, en comptes de dir la paraula en veu alta, l'escriureu en l'espai en blanc de l'exercici de pràctica número 1. Som-hi. Per exemple, la lletra a) és “ral”. És per això que a l'espai de la resposta hi ha escrit el número 3. Després de dir cada número, donaré temps per escriure'l i llavors donaré la resposta correcta.

b. “Co”

5 segons de pausa.

“1” és la resposta correcta. Per això hauríeu d'haver escrit el número 1 a l'espai de la lletra b).

c. “Vein”

5 segons de pausa.

“2” és la resposta correcta

d. “Ral”

5 segons de pausa.

“3” és la resposta correcta.

e. “Vein”.

5 segons de pausa.

“2” és la resposta correcta.

f. “Co”

5 segons de pausa.

“1” és la resposta correcta.

Ara aprendrem els noms dels números 10, 20 i 30.

“Silca” és 10.

El nom del número 10 és “Silca”.

Quan un sent la paraula “Silca” ja sap que vol dir 10.

“Vinca” és 20.

El nom del número 20 és “Vinca”

Quan un sent la paraula “Vinca” ja sap que vol dir 20.

“Ralca” és 30

El nom del número 30 és “Ralca”.

Quan un sent la paraula “Ralca” ja sap que vol dir 30.

Ara farem l’exercici de pràctica 2. Quan jo digui la paraula heu d’escriure el número en l’espai en blanc. Per exemple, la lletra a) és “vinca” i per això el número 20 està escrit en l’espai en blanc.

Seguim:

b) “Silca”

5 segons de pausa

10 és la resposta correcta

C) “Ralca”

5 segons de pausa

30 és la resposta correcta

d) “Vinca”

5 segons de pausa

20 és la resposta correcta

e) “Silca”

10 és la resposta correcta.

5 segons de pausa

f) “Ralca”

5 segons de pausa

30 és la resposta correcta

Ara practicarem ajuntant els números. Per exemple, saben que Silca és “10” i que “Ral” és tres.

O sigui que si jo dic Silca-Ral vol dir 13.

Sabem que “Ralca” és 30 i que “Vein” és 2. Llavors, si dic Ralca-Vein vol dir 32.

Passem ara a l’exercici de pràctica número 3. La lletra a) és “Vinca-Co”, o sigui, “21”. Per això s’ha escrit el número “21” a l’espai per a la resposta. La b) és “Vein”, és a dir, “2”, per això s’ha escrit el número 2. Ara heu d’escriure els números per a les següents paraules.

c) “Vinca-Vein”

5 segons de pausa

22 és la resposta correcta

d) “Silca-Co”

5 segons de pausa

11 és la resposta correcta

e) “Ralca”

5 segons de pausa

30 és la resposta correcta

f) “Silca-Vein”

5 segons de pausa

12 és la resposta correcta.

Ara passem a la pàgina següent. Aquí farem el mateix que als exercicis de pràctica. Quan jo digui les paraules heu d’escriure el número corresponent. Endavant, comencem.

a) Vinca-ral

- 10 segons de pausa
- b) Vein
- 10 segons de pausa
- c) Silca-co

Sample items from the MLAT-EC

PART 1- PARAULES OCULTES

1. tlfon un mes de l'any serveix per parlar

 bolígraf part del cos

2. ovrt salt sense tancar

 animal petit color fosc

3. mozk móble tipus d'armari

 cançó insecte

4. fnstra deixa entrar la llum planta tropical

 estima els nens bonica

Correct Answers:

1. **tlfon** is a disguised spelling of **telèfon** (telephone), which corresponds in meaning to **serveix per parlar** (it is used to talk)

2. **ovrt** is a disguised spelling of **overt** (open), which corresponds in meaning to **sense tancar** (without closing)

3. **mozk** is a disguised spelling of **mosca** (fly), which corresponds in meaning to **insecte** (insect)

4. **fnstra** is a disguised version of **finestra** (window), which corresponds in meaning to **deixa entrar la llum** (lets the light in)

PART 2- PARAULES QUE ES CORRESPONEN

1. Ahir el dentista m'arrencà un **QUEIXAL**

L'Alfred escriurà una carta llarga.

2. L'Enric **TIRÀ** una pedra gran.

La Sandra va en bicicleta.

3. La Joana duia un barret VERD.

L'Àlex vol uns patins nous.

4. La SUSANNA va trencar un got.

El meu gos menja galetes.

Correct Answers:

1. A mark would be put in the box beneath **carta**. In the first sentence, something was taken out, and the thing that was taken was a QUEIXAL (molar). In the second sentence, something was written, and that thing was a **carta** (letter).

2. A mark would be put in the box beneath **va** because TIRÀ (threw away) in the first sentence and **va** (goes) in the second sentence are both *the action* that occurs.

3. A mark would be put in the box beneath **nous** because VERD (green) in the first sentence *describes* the hat and **nous** (new) in the second sentence *describes* the skaters.

4. A mark would be placed in the box beneath **gos** (cat) because the first sentence is *about* a SUSANNA (Suzanne) and the second sentence is *about my cat*.

In Table F.7 the items of this part appear classified according to the function they aim at. The percentages in bold letters refer to the total of items on the test regardless of their function. It can be seen that the most difficult function to recognize by all grades was the adjective, followed by the subject and verb function. Regarding the object function, item 11 appears to be difficult for more than one grade.

Appendix P – Descriptive statistics and correlations related to the listening test administered in grades 3 and 4

Figure P.1. Histogram of the listening test – grade 3.....	1
Figure P.2. Histogram of the listening test – grade 4.....	1
Table P.1. Descriptive statistics and correlations between MLAT-ES scores and the listening test for grade 3 and 4	2
Table P.2. Descriptive statistics and correlations between MLAT-EC scores and the listening test for grade 3 and 4	2

Figure P.1. Histogram of the listening test – grade 3

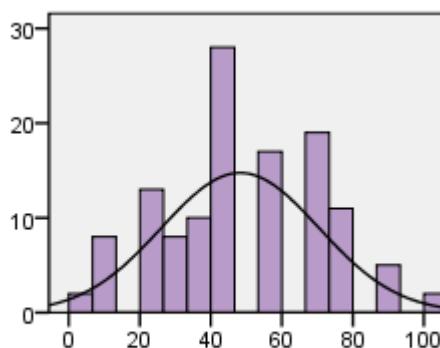

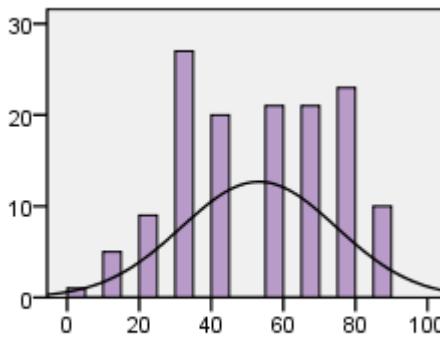

Figure P.2. Histogram of the listening test – grade 4

The mean *p*-values of the listening test were .48 for grade 3 and .53 for grade 4, which means this test was mid-difficult for both grades. While some children in grade 3 reached top marks in this test, none of the 4-graders did. Means and standard deviations are very similar in both grades (grade 3, N= 123, M=48.25, SD=22.18; grade 4, N=137, M=53.20, SD=21.54). The kurtosis values are negative in both grades

(grade 3 $K=-.511$, grade 4 $K=-.868$) but scores are positively skewed in grade 3 ($S=.076$) but negatively skewed in grade 4 (-.126).

The listening test does not correlate significantly with any of the parts except for Parte 3. The correlation in this grade is significant but low ($r_s=.175$, $p<.05$).

Table P.1. Descriptive statistics and correlations between MLAT-ES scores and the listening test for grade 3 and 4

Grade	N	Mean	SD	Parte 1	Parte 2	Parte 3	Parte 4	Total
3	66	46.33	21.69	.057	.191	.214	.042	.208
4	75	39.85	28.79	-.031	.005	.136	.083	.061
3 & 4	141	49.18	22.08	.067	.115	.175*	.070	.142

* Correlation is significant at 0.05 (two-tailed)

** Correlation is significant at 0.01 (two-tailed)

While *Parte 3* only correlated significantly with the listening considering grades 3 and 4 together, the MLAT-EC does correlate with the listening in some of its parts. Significant moderate correlations are found with *Part 1* in grade 4 and grouping grade 3 and 4 together, although it does not correlate significantly in grade 3. *Part 4* also seem to have some kind of significant relationship with this proficiency measure at a low-moderate level. The total score also presents a low correlation with the listening measure in grade 4 ($r_s=.290$, $p<.05$) and in grade 3 and 4 together ($r_s=.292$, $p<.001$).
