Appendix H

Results: Computerized translation [2]

Translations obtained as the result of translating the English SL sample text into Catalan TL segments with the help of the proposed TM matches using the Concordance facility of Translator's Workbench

CASE 1¹

Number of matches obtained with the Concordance facility: [10 hits² for TU [1], 12 hits for TU [2] and 7 hits for TU [3]]

Source paragraph: *Whether it's to [1] access menus, point, click and drag data on the screen or to [2] carry out a series of commands normally assigned to the keyboard, nowadays it is normal for everyone to [3] use some sort of a point-and-click device.*

[1] access menus, point, click and drag data on the screen

[1a] Regardless whether you need to access menus, drag, point and clic data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegar o assenyalar dades per la pantalla o bé executar una sèrie d'ordres usual-

¹Since some of these cases analysed are paragraphs, several TU's within these paragraphs have been run against the Concordances facility. Altogether 27 TU's have been analysed.

²Translator's Workbench uses the word "hit" as an equivalent of "match".

ment assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[1b] the cursor automatically jumps to the next logical position on the screen.

el cursor pot saltar automàticament a la següent posició lògica de la pantalla.

[1c] By 'jumping' the cursor automatically to the next logical position on the screen.

ja que fa saltar el cursor a la següent posició lògica de la pantalla.

[1d] Regardless whether you need access menus.

Independentment de si es necessita accedir als menús.

[1e] Its intelligent software anticipates movements in menus, which reduces the need for user intervention by 'jumping' the cursor automatically to the next logical position on the screen.

Aquest software intel·ligent és capaç d'anticipar moviments dels menús, fet que redueix la necessitat d'intervenció de l'usuari, ja que fa saltar el cursor automàticament a la següent posició lògica de la pantalla.

[1f] drag data

arrossegat dades

[1g] access menus

tenir accès als menús

[1h] point data

assenyalar les dades

[1i] click data

fer clic en les dades

[1j] on your screen

en la pantalla

[2] carry out a series of commands normally assigned to the keyboard

[2a] it is designed to carry out keyboard commands and other movements.

està dissenyat per executar ordres de teclat i altres moviments.

[2b] it is programmed to carry out keyboard commands.

està programat per executar ordres del teclat.

[2c] Regardless whether you need to access menus, drag, point and click data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegat o assenyalar dades per la pantalla o bé executar una sèrie d'ordres usualment

assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[2d] carry out a command.

executar una ordre.

[2e] it is programmed to carry out repetitive movements.

està programat per executar moviments repetitius.

[2f] click and double-click assigned to the buttons.

clic i doble clic assignats als botons.

[2g] the third button is a shortcut to carry out any other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

[2h] the third button stays free as a shortcut to carry out other frequently used commands.

el tercer botó és una tecla de mètode abreujat per executar les ordres més freqüents.

[2i] the third button remains free as a shortcut to carry out other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

[2j] to execute a set of commands.

execució d'una sèrie d'ordres.

[2k] Like all the other three-button Sony mice, it is designed to execute keyboard commands and stressful, repetitive movements.

Com tots els ratolins Sony de tres botons, està dissenyat per executar ordres de teclat i fer moviments difícils i repetitius.

[2l] nowadays it is normal for people to use some kind of a point-and-click device.

avui en dia tothom té algun tipus de dispositiu de senyalització.

[3] use some sort of a point-and-click device

[3a] nowadays it is normal for people to use some kind of a point-and-click device.

avui en dia tothom té algun tipus de dispositiu de senyalització.

[3b] Regardless whether you need to access menus, drag, point and clic data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegar o asenyalar dades per la pantalla o bé executar una sèrie d'ordres usualment assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[3c] to use point-and-click devices.

utilitzar dispositius de senyalització.

[3d] SonyWare is a software package supplied with all the point-and-click devices.

SonyWare és un paquet de software subministrat amb tots els dispositius de senyalització.

[3e] SonyWare is an excellent software utility which includes all the top of the range point-and-click devices.

SonyWare és una excel·lent eina de software que disposa de tots els dispositius de senyalització punters.

[3f] this button is for right and left-handed use.

aquest botó està fet per a usuaris dretans i esquerrans.

[3g] It has a reversible index button for left and right-handed use.

Té un botó índex reversible per usuaris esquerrans i dretans.

CASE 2

Number of matches obtained with the Concordance facility: [3 hits for TU [4], 1 hit for TU [5]]

Source paragraph: [4] Choosing a mouse or trackball is often dictated by the system one purchases, but, since this is the most frequently used device on the computer, it really is worth [5] making a minor investment and selecting the model that suits both the task and the hand that is going to use it.

[4] Choosing a mouse or trackball is often dictated by the system

[4a] The choice of a mouse or trackball is often determined by the operating system the user has.

L'elecció d'un ratolí o ratolí estàtic sovint ve determinada pel sistema operatiu de l'usuari.

[4b] choosing a trackball is often dictated by the system.

L'elecció d'un ratolí estàtic ve sovint definida pel sistema.

[4c] choosing a mouse is often dictated by the system.

L'elecció d'un ratolí ve sovint definida pel sistema.

[5] making a minor investment and selecting the model

[5a] However, because pointing devices tend to be the most frequently used devices of a computer, it is really worth our while to buy a more expensive one and select the model that is more adequate for both the type of job and the user's hand.

Tot i això, donat que els dispositius de senyalització acostumen a ser dels perifèrics més utilitzats de l'ordinador, realment val la pena de gastar-s'hi una mica més i seleccionar el model més adequat tant al tipus de feina com a la mà de l'usuari.

CASE 3

Number of matches obtained with the Concordance facility: [7 hits for TU [6], 5 hits for TU [7]]

Source paragraph: *This three-button mouse with [6] its superb ergonomic design and indented buttons for more comfortable finger positioning, [7] uses radio-link technology to get around obstacles that normally prevent an infrared mouse from functioning.*

[6] its superb ergonomic design and indented buttons for more comfortable finger positioning

[6a] This mouse has three buttons and has an ergonomic design that includes ergonomic buttons for a better position of the fingers.

Aquest ratolí inclou tres botons i a més disposa d'un disseny ergonòmic amb tecles que faciliten la posició dels dits.

[6b] this mouse with its ergonomic design and indented buttons uses radio-link technology.

aquest ratolí, de disseny ergonòmic i botons oscats, utilitza tecnologia de ràdio.

[6c] for more comfortable finger positioning.

per a una posició dels dits més còmoda.

[6d] superb ergonomic design.

disseny ergonòmic punter.

[6e] this gives the most comfortable finger positioning.

això facilita la posició de la mà.

[6f] indented buttons. botons oscats.

[6g] this mouse with its adaptable design and indented buttons uses technology to get around obstacles.

aquest ratolí de disseny adaptable i botons oscats, utilitza la tecnologia per superar obstacles.

[7] uses radio-link technology to get around obstacles that normally prevent an infrared mouse from functioning

[7a] this mouse uses technology to get around obstacles.

aquest ratolí utilitza tecnologia per sortejar obstacles.

[7b] radio-link technology.

tecnologia de ràdio.

[7c] this mouse with its adaptable design and indented buttons uses technology to get around obstacles.

aquest ratolí, de disseny adaptable i botons oscats, utilitza la tecnologia per superar obstacles.

[7d] *It uses radio technology to overcome obstacles that other infrared mice find difficult to manouver.*

Utilitza tecnologia de ràdio per superar obstacles que altres ratolins que funcionen per infrarojos troben difícil de salvar.

[7e] *this mouse with its ergonomic design and indented buttons uses radio-link technology.*

aquest ratolí, de disseny ergonòmic i botons oscats, utilitza tecnologia de ràdio.

CASE 4

Number of matches obtained with the Concordance facility: [2 hits for TU [8]]

Source paragraph: Freed from [8] the constraints of a cable, it can be used on even the most cluttered of surfaces.

[8] the constraints of a cable

[8a] Freed from the obstacles of a cable, this mouse can be used on busy surfaces.

Com que no té les restriccions d'un cable, aquest ratolí pot utilitzar-se en superfícies plenes de coses.

*[8b] the constraints of a cable.
les restriccions del cable.*

CASE 5

Number of matches obtained with the Concordance facility: [2 hits for TU [9]]

Source paragraph: Tuned in to one of four different channels to avoid interference from other users, [9] it gives effortless tracking, even when placed six feet away from its receiver.

[9] it gives effortless tracking

[9a] it gives effortless tracking.

permet fer un rastreig sense esforços.

[9b] Connected to one of four different sound channels to avoid interference from other users, it allows to track with virtually no effort, even when we are positioned six feet away from the receiver.

Com que està connectat a un de quatre canals de so per evitar les interferències amb altres usuaris, permet fer rastrejos sense gairebé cap esforç, fins i tot quan l'usuari està situat a més d'un metre i mig de distància del receptor.

CASE 6

Number of matches obtained with the Concordance facility: [11 hits for TU [10] and hits for TU [11]]

Source paragraph: *And, like all the other three-button Logitech mice, it is [10] programmed to carry out keyboard commands and [11] repetitive, stressful movements.*

[10] programmed to carry out keyboard commands

[10a] it is programmed to carry out keyboard commands.

està programat per executar moviments del teclat.

[10b] it is designed to carry out keyboard commands and other movements.

està dissenyat per executar ordres de teclat i altres moviments.

[10c] it is programmed to carry out repetitive movements.

està programat per executar moviments repetitius.

[10d] the third button stays free as a shortcut to carry out other frequently used commands.

el tercer botó és una tecla de mètode abreujat per executar les ordres més freqüents.

[10e] the third button is a shortcut to carry out any other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

[10f] the third button remains free as a shortcut to carry out other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

[10g] Like all the other three-button Sony mice, it is designed to execute keyboard commands and stressful, repetitive movements.

Com tots els ratolins Sony de tres botons, està dissenyat per executar ordres de teclat i fer moviments difícils i repetitius.

[10h] Regardless whether you need to access menus, drag, point and click data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegar o asenyalar dades per la pantalla o bé executar una sèrie d'ordres usualment assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[10i] carry out a command.

executar una ordre.

[10j] *In this way the mouse can be programmed according to light, working conditions and even personal preference.*

D'aquesta manera, el ratolí pot programar-se en funció de la llum, condicions de treball i fins i tot de les preferències de cadascú.

[10k] *to execute a set of commands.*

execució d'una sèrie d'ordres.

[11] repetitive, stressful movements

[11a] *Like all the other three-button Sony mice, it is designed to execute keyboard commands and stressful, repetitive movements.*

Com tots els ratolins Sony de tres botons, està dissenyat per executar ordres de teclat i fer moviments difícils i repetitius.

[11b] *stressful movements are reduced to a minimum.*

Els moviments repetitius queden reduïts a la mínima expressió.

[11c] *stressful movements.*

moviments estressants.

[11d] *Stressful movements are reduced to a minimum.*

Els moviments repetitius queden reduïts a la mínima expressió.

[11e] *Repetitive movements are reduced to a minimum.*

Els moviments repetitius queden reduïts a la mínima expressió.

[11f] *it is programmed to carry out repetitive movements.*

està programat per executar moviments repetitius.

[11g] *Its intelligent software anticipates movements in menus, which reduces the need for user intervention by “jumping” the cursor automatically to the next logical position on the screen.*

Aquest software intel·ligent és capaç d'anticipar moviments dels menús, fet que redueix la necessitat d'intervenció de l'usuari ja que fa “saltar” el cursor automàticament a la següent posició lògica de la pantalla.

[11h] *it is designed to carry out keyboard commands and other movements.*

està dissenyat per executar ordres de teclat i altres moviments.

[11i] *this intelligent software anticipates movements in menus.*

aquest software intel·ligent és capaç d'anticipar moviments dels menús.

[11j] *this program anticipates movements in menus thus reducing the need for user intervention.*

aquest programa pot anticipar moviments de menús; d'aquesta manera es redueix la necessitat d'intervenció de l'usuari.

CASE 7

Number of matches obtained with the Concordance facility: [8 hits for TU [12] and 5 hits for TU [13]]

Source paragraph: Small and lightweight, this mouse is primarily [12] destined for laptop and notebook systems although nothing prevents it being used on a [13] docking station or a desktop system.

[12] destined for laptop and notebook systems

[12a] Lightweight and small, this mouse is basically designed for notebook and laptop systems but it can no doubt be used on desktop systems or docking stations.

Com és petit i lleuger, aquest ratolí està pensat per a sistemes notebook i portàtils tot i que també pot utilitzar-se en sistemes d'escriptori i estacions fixes.

[12b] this is destined for laptop systems.

està dissenyat per a sistemes portàtils.

[12c] small and lightweight, this mouse is destined for laptop systems. com és petit i lleuger, aquest ratolí està creat especialment per sistemes portàtils.

[12d] lightweight and small, this mouse is primarily destined for laptop systems.

com és petit i lleuger, aquest ratolí està creat especialment per sistemes portàtils.

[12e] this button is for right and left-handed use.

aquest botó està fet per a usuaris dretans i esquerrans.

[12f] both on standalone and networked systems.

en sistemes independents i connectats per xarxa.

[12g] nowadays it is normal for people to use some kind of a point-and-click device.

avui en dia tothom té algun tipus de dispositiu de senyalització.

[12h] It has a reversible index button for left and right-handed use.

Té un botó índice reversible per a usuaris esquerrans i dretans.

[13] docking station or a desktop system

[13a] Lightweight and small, this mouse is basically designed for notebook and laptop systems but it can no doubt be used on desktop systems or docking stations.

Com és petit i lleuger, aquest ratolí està pensat per a sistemes notebook i portàtils tot i que també pot utilitzar-se en sistemes d'descriptori i estacions fixes.

[13b] desktop systems or docking stations.

sistemes d'descriptori i estacions de treball.

[13c] The choice of a mouse or trackball is often determined by the operating system the user has.

L'elecció d'un ratolí o ratolí estàtic sovint ve determinada pel sistema operatiu de l'usuari.

[13d] choosing a trackball is often dictated by the system.

l'elecció d'un ratolí estàtic ve sovint definida pel sistema.

[13e] choosing a mouse is often dictated by the system.

l'elecció d'un ratolí ve sovint definida pel sistema.

CASE 8

Number of matches obtained with the Concordance facility: [3 hits for TU [14], 4 hits for TU [15] and 3 hits for TU [16]]

Source paragraph: It has a [14] reversible index button for [15] right and left-handed use] and comes with a [16] soft clip-on pouch for easy transport.

[14] reversible index button

[14a] reversible index button.
botó índice reversible.

[14b] It has a reversible index button for left and right-handed use.
Té un botó índice reversible per a usuaris esquerrans i dretans.

[14c] it has a reversible button.
disposa d'un botó reversible.

[15] right and left-handed use

[15a] It has a reversible index button for left and right-handed use.
Té un botó índice reversible per a usuaris esquerrans i dretans.

[15b] this button is for right and left-handed use.
aquest botó està fet per a usuaris dretans i esquerrans.

[15c] it has a button for left-handed users.
inclou un botó per a usuaris esquerrans.

[15d] it includes models for left-handed persons.
inclou models per a esquerrans.

[16] soft clip-on pouch

[16a] this has a soft clip-on pouch.
té una bossa.

[16b] it has a soft clip-on pouch for easy transport.
disposa d'una bossa per facilitar-ne el transport.

[16c] It includes an easy-to-transport pouch.
També té una bossa per facilitar-ne el transport i la mobilitat.

CASE 9

Number of matches obtained with the Concordance facility: [8 hits for TU [17]]

Source paragraph: Comfortable [17] top-of-the-range pointing devices are guaranteed for 3 years.

[17] top-of-the-range pointing devices

[17a] SonyWare is a complete package supplied with all the top of the range pointing devices.

SonyWare és un paquet de programes complet subministrat amb tots els dispositius de senyalització punters.

[17b] SonyWare is an excellent software utility which includes all the top of the range point-and-click devices.

SonyWare és una eina de software excel·lent que disposa de tots els dispositius de senyalització punters.

[17c] comfortable top-of-the-range device.

dispositiu punter i de màxima comoditat.

[17d] However, because pointing devices tend to be the most frequently used devices of a computer, it is really worth our while to buy a more expensive one and select the model that is more adequate for both the type of job and the user's hand.

Tot i això, donat que els dispositius de senyalització acostumen a ser dels perifèrics més utilitzats de l'ordinador, realment val la pena de gastar-s'hi una mica més i seleccionar el model més adequat tant al tipus de feina com a la mà de l'usuari.

[17e] Comfortable exclusive pointing devices are guaranteed for 5 years.

Aquests dispositius de senyalització, confortables i exclusius, estan garantits durant 5 anys.

[17f] Ergonomic “pointing” devices

Dispositius de senyalització ergonòmics

[17g] SonyWare is a software package supplied with all the point-and-click devices.

SonyWare és un paquet de software subministrat amb tots els dispositius de senyalització.

[17h] this package is supplied with the best devices.

aquest paquet es comercialitza amb els millors dispositius.

CASE 10

Number of matches obtained with the Concordance facility: [7 hits for TU [18]]

Source paragraph: MouseWare is a complete software package supplied with all the top of the range point-and-click devices.

[18] complete software package

[18a] SonyWare is a complete package supplied with all the top of the range pointing devices.

SonyWare és un paquet de programes complet subministrat amb tots els dispositius de senyalització punters.

[18b] SonyWare is a software package supplied with all the point-and-click devices.

SonyWare és un paquet de software subministrat amb tots els dispositius de senyalització.

[18c] this package is supplied with the best devices.

aquest paquet es comercialitza amb els millors dispositius.

[18d] SonyWare is an excellent software utility which includes all the top of the range point-and-click devices.

SonyWare és una excel·lent eina de software que disposa de tots els dispositius de senyalització punters.

[18e] this intelligent software anticipates movements in menus.

aquest software intel·ligent és capaç d'anticipar moviments dels menús.

[18f] Its intelligent software anticipates movements in menus, which reduces the need for user intervention by "jumping" the cursor automatically to the next logical position on the screen.

Aquest software intel·ligent és capaç d'anticipar moviments dels menús, fet que redueix la necessitat d'intervenció de l'usuari fent saltar el cursor automàticament a la següent posició lògica de la pantalla.

[18g] other functions of this software are the possibility of changing its cursor appearance, size, response, speed and acceleration.

altres funcions d'aquest software inclouen la possibilitat de canviar l'aparença del cursor, les mesures, la resposta, la velocitat i l'acceleració.

CASE 11

Number of matches obtained with the Concordance facility: [9 hits for TU [19] and 2 hits for TU [20]]

Source paragraph: Compatible with both DOS and Windows, Windows NT and OS2, both on [19] standalone and networked systems, the simple, [20] one-step installation process detects system configuration and automatically installs the correct files.

[19] standalone and networked systems

[19a] Compatible with both Windows and DOS, OS2 and Windows NT, both on networked and standalone systems, it is installed by a simple installation which detects the system configuration and installs the correct files without any warning.

Compatible amb Windows i DOS, OS2 i Windows NT, tant en sistemes de xarxa o independents, pot instal·lar-se amb una simple operació que detecta la configuració del sistema i installa els arxius correctes sense haver de fer cap avament.

[19b] networked systems and standalone.

sistemes de xarxa i de sobretaula.

[19c] both on standalone and networked systems.

en sistemes independents i connectats per xarxa.

[19d] Lightweight and small, this mouse is basically designed for notebook and laptop systems but it can no doubt be used on desktop systems or docking stations.

Petit i lleuger, aquest ratolí està pensat per a sistemes notebook i portàtils tot i que també pot utilitzar-se en sistemes d'escriptori i estacions fixes.

[19e] small and lightweight, this mouse is destined for laptop systems.

petit i lleuger, aquest ratolí està creat especialment per a sistemes portàtils.

[19f] lightweight and small, this mouse is primarily destined for laptop systems.

petit i lleuger, aquest ratolí està creat especialment per a sistemes portàtils.

[19g] desktop systems or docking stations.

sistemes d'escriptori i estacions de treball.

[19h] compatible with many operating systems.

compatible amb molts sistemes operatius.

[19i] this is destined for laptop systems.

està dissenyat per a sistemes portàtils.

[20] one-step installation process

[20a] the simple, one-step installation process detects the system configuration.

S'instal·la de forma senzilla i és capaç de detectar la configuració del sistema.

[20b] Compatible with both Windows and DOS, OS/2 and Windows NT, both on networked and standalone systems, it is installed by a simple installation which detects the system configuration and installs the correct files without any warning.

Com que és compatible amb Windows i DOS, OS2 i Windows NT, tant en sistemes de xarxa o independents, pot instal·lar-se amb una simple operació que detecta la configuració del sistema i instal·la els arxius correctes sense haver de fer cap avvertiment.

CASE 12

Number of matches obtained with the Concordance facility: [2 hits for TU [21] and 4 hits for TU [22]]

Source paragraph: With [21] click and double-click assigned to one or other of the two buttons, the third button [22] remains free as a shortcut to carry out any other frequently used commands.

[21] click and double-click assigned

[21a] click and double-click assigned to the buttons.

clic i doble clic assignats als botons.

[21b] Regardless whether you need to access menus, drag, point and click data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegar o asenyalar dades per la pantalla o bé executar una sèrie d'ordres usualment assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[22] remains free as a shortcut

[22a] the third button remains free as a shortcut to carry out other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

[22b] the third button stays free as a shortcut to carry out other frequently used commands.

el tercer botó és una tecla de mètode abreujat per executar les ordres més freqüents.

[22c] the third button is a shortcut.

el tercer botó és una tecla de mètode abreujat.

[22d] the third button is a shortcut to carry out any other commands.

el tercer botó és una tecla de mètode abreujat per executar les altres ordres que hi vulguem introduir.

CASE 13

Number of matches obtained with the Concordance facility: [4 hits for TU [23] and 1 hit for TU [24]]

Source paragraph: MouseWare also commands functions such as [23] cursor appearance and size, speed, response and acceleration so that the mouse can be programmed according to [24] personal reference, light and working conditions.

[23] cursor appearance and size, speed, response and acceleration

[23a] This mouse also commands functions such as size, speed, response, acceleration and cursor appearance.

Aquest dispositiu també pot gestionar la mida, la velocitat, la resposta, l'acceleració i l'aparença del cursor, entre altres funcions.

[23b] Sony also commands functions such as size, cursor appearance, speed, acceleration and response.

Aquest dispositiu també pot gestionar la mida, la velocitat, la resposta, l'acceleració i l'aparença del cursor, entre altres funcions.

[23c] MouseWare also commands functions such as cursor appearance and size, speed, response and acceleration.

Aquest dispositiu també pot gestionar la mida, la velocitat, la resposta, l'acceleració i l'aparença del cursor, entre altres funcions.

[23d] other functions of this software are the possibility of changing its cursor appearance, size, response, speed and acceleration.

altres funcions d'aquest software inclouen la possibilitat de canviar l'aparença del cursor, les mesures, la resposta, la velocitat i l'acceleració.

[24] personal reference, light and working conditions

[24a] In this way the mouse can be programmed according to light, working conditions and even personal preference.

D'aquesta manera, el ratolí pot programar-se en funció de la llum, de les condicions de treball i fins i tot de les preferències de cadascú.

CASE 14

Number of matches obtained with the Concordance facility: [13 hits for TU [25], 5 hits for TU [26] and 2 hits for TU [27]]

Source paragraph: Intelligent software [25] anticipates movements in menus thus reducing the need for user intervention by “jumping” the cursor automatically to the [26] next logical position on the screen. The net result is [27] easier, faster computing.

[25] anticipates movements in menus

[25a] Its intelligent software anticipates movements in menus, which reduces the need for user intervention by “jumping” the cursor automatically to the next logical position on the screen.

Aquest software intel·ligent és capaç d'anticipar moviments dels menús, fet que redueix la necessitat d'intervenció de l'usuari, ja que fa saltar el cursor automàticament a la següent posició lògica de la pantalla.

[25b] this intelligent software anticipates movements in menus.

aquest software intel·ligent és capaç d'anticipar moviments dels menús.

[25c] this program anticipates movements in menus thus reducing the need for user intervention.

aquest programa pot anticipar moviments de menús; d'aquesta manera es redueix la necessitat d'intervenció de l'usuari.

[25d] Stressful movements are reduced to a minimum.

Els moviments repetitius queden reduïts a la mínima expressió.

[25e] Regardless whether you need access menus.

Independentment de si es necessita accedir als menús.

[25f] Regardless whether you need to access menus, drag, point and click data on your screen or to execute a set of commands usually assigned to the keyboard, it is normal for computer users to employ some kind of point-and-click device.

Independentment de si es necessita accedir als menús, arrossegat o assenyalar dades per la pantalla o bé executar una sèrie d'ordres usualment assignades al teclat, resulta freqüent que l'usuari utilitzi alguna mena de dispositiu de senyalització.

[25g] it is designed to carry out keyboard commands and other movements.

està dissenyat per executar ordres de teclat i altres moviments.

[25h] Repetitive movements are reduced to a minimum.

Els moviments repetitius queden reduïts a la mínima expressió.

[25i] stressful movements are reduced to a minimum.

Els moviments repetitius queden reduïts a la mínima expressió.

[25j] stressful movements.

moviments estressants.

[25k] Like all the other three-button Sony mice, it is designed to execute keyboard commands and stressful, repetitive movements.

Com tots els ratolins Sony de tres botons, està dissenyat per executar ordres de teclat i fer moviments difícils i repetitius.

[25l] it is programmed to carry out repetitive movements.

està programat per executar moviments repetitius.

[25m] access menus.

tenir accés als menús.

[26] next logical position

[26a] jumping the cursor automatically to the next logical position.

fent saltar el cursor automàticament a la següent posició lògica.

[26b] the cursor automatically jumps to the next logical position on the screen.

el cursor pot saltar automàticament a la següent posició lògica de la pantalla.

[26c] Its intelligent software anticipates movements in menus, which reduces the need for user intervention by “jumping” the cursor automatically to the next logical position on the screen.

Aquest software intelligent és capa d'anticipar moviments dels menús, fet que redueix la necessitat d'intervenció de l'usuari, ja que fa saltar el cursor automàticament a la següent posició lògica de la pantalla.

[26d] This mouse has three buttons and has an ergonomic design that includes ergonomic buttons for a better position of the fingers.

Aquest ratolí inclou tres botons i a més disposa d'un disseny ergonòmic amb tecles que faciliten la posició dels dits.

[26e] Connected to one of four different sound channels to avoid interference from other users, it allows to track with virtually no effort, even when we are positioned six feet away from the receiver.

Està connectat a un de quatre canals de so per evitar les interferències amb altres usuaris i, per tant, permet fer rastrejos sense gairebé cap esforç, fins i tot quan l'usuari està situat a més d'un metre i mig del receptor.

[27] easier, faster computing

- [27a] The net result is easier, faster computing.*
El resultat final és un treball més ràpid i fàcil.
- [27b] The final result is faster and easier computing.*
El resultat final és un treball més ràpid i fàcil.

Appendix I

Log file

This is the log file obtained after running the source text against the TM facility¹.

The screenshot shows a Windows Notepad window with two tables of data. The first table is titled 'C:\TRADOS\Sleng12.doc' and has columns: Match Types, Segments, Words, Percent, and Placeables. The second table is titled 'Analyze Total' and has the same columns. Both tables show identical data.

Match Types	Segments	Words	Percent	Placeables
Repetitions	0	0	0	0
100%	4	38	6	0
95% - 99%	1	18	3	0
85% - 94%	2	38	8	0
75% - 84%	0	0	0	0
50% - 74%	1	21	4	0
No Match	17	351	79	0
Total	25	458	100	0
Chars/Wo	5.15	5.15		

Match Types	Segments	Words	Percent	Placeables
Repetitions	0	0	0	0
100%	4	38	6	0
95% - 99%	1	18	3	0
85% - 94%	2	38	8	0
75% - 84%	0	0	0	0
50% - 74%	1	21	4	0
No Match	17	351	79	0
Total	25	458	100	0

¹The "Segments" column should be exchanged by the expression "Translation Unit" or "TU", as this is the terminology used throughout this dissertation. Note that the total number of TU's (or segments) that the program has established (25) do not coincide with the number of TU's that I have established (14) because the program has its own tagging system.
