<b>Table of Content</b>	i
<b>Preface</b>	iii
Dedication	1
Declaration	2
Acknowledgements	3
Executive Summary	4
<b>Chapter 1. Introduction, Background &amp; Objectives</b>	<b>5</b>
1.1 Introduction	5
1.2 Skill-set of the Future	7
1.3 Social Competencies Identification	9
1.4 Redesigning the Engineering Curriculum	11
1.5 The ETSEQ Approach	12
1.6 General Purpose	14
1.7 References for Chapter 1	16
<b>Chapter 2. Vertical and Horizontal Integration of Education</b>	<b>20</b>
2.1 Background	20
2.2 Preliminary Steps Towards a Competency Based Model	21
2.3 The Academic Organization Selected	22
2.4 The Change Management Technology	23
2.4.1 Building the Vision	23
2.4.2 Building Competencies and Identifying Transformations	25
2.5 The Fundamental Intervention Teamwork and Cooperation	26
2.6 Transformational Changes and Learning	28
2.6.1 Transformations and Competencies	29
2.6.2 Transformation through Structured Education	31
2.7 Creating Support for Change	32
2.8 References for Chapter 2	34
<b>Chapter 3. Experiments, Evaluations and Measures</b>	<b>37</b>
3.1 Design of the Experiment	37
3.2 Evaluation of Surveys	40
3.2.1 Baseline Assessment in 2000/01	40
3.2.2 Survey 2 in 2000/01. Team Members after the Intervention	44
3.2.3 Surveys 3 & 4 in 2000/01. Team Members 3 & 9 Months after the Intervention	47
3.2.4 Survey 5 in 2000/01- Team Leader and Knowledge Manager 3 and 9 Months after the Intervention	63
3.3 Correlation between Education and Performance	69

3.3.1	Comparison of Poster Presentation Marks	69
3.3.2	Comparison of Team Report Marks	70
3.3.3	Comparison of Individual Marks	70
3.3.4	Expansion of Target Population	71
3.4	Concluding Remarks	72
3.5	References for Chapter 3	74
<b>Chapter 4. The Competency-Based Educational Model</b>		<b>76</b>
4.1	Background	76
4.2	The Model	77
4.2.1	Hypothesis	77
4.2.2	Framework	79
4.2.3	Competencies and Rationale	80
4.3	The Key Competency Model Components	82
4.3.1	Integrative and Experiential	82
4.3.2	Specific Courses and Interventions	85
4.3.3	Assessment Process	88
4.4	Deployment and Preliminary Evaluation of the Model	90
4.5	Final Remarks	93
4.6	References for Chapter 4	95
<b>Chapter 5. Concluding Remarks and Recommendations</b>		<b>98</b>
5.1	Conclusions	98
5.2	Recommendations for Future Research	99
5.2.1	Articulate Vision	99
5.2.2	Establish Change Readiness	99
5.2.3	Develop Change Leadership	101
5.2.4	Build and Develop a Project Team to Manage New Model	101
5.2.5	Identify and Manage Expectations of Stakeholders	102
5.2.6	Design and Execute Communication Strategies	103
5.2.7	Design Jobs	103
5.2.8	Develop Performance Measures	103
5.2.9	Develop Competencies	105
5.2.10	Align Culture, Structure and Rewards	108
5.2.11	Develop Human Resource Policies	109
5.2.12	Implement Change/Measure Results/Reward Teams and Individuals/ Maintain and Improve	109
5.3	References for Chapter 5	110
<b>Appendices</b>		<b>112</b>
<b>A</b>	<b>Coaching Related Competencies</b>	<b>112</b>
<b>B</b>	<b>Survey Forms</b>	<b>119</b>
<b>C</b>	<b>Improved Survey Forms</b>	<b>155</b>
<b>D</b>	<b>Int. Journal of Engineering Education: Reviewer's Comments</b>	<b>168</b>
<b>E</b>	<b>Details of some Interventions and Additional Short Courses</b>	<b>171</b>
